

## How do you describe the leverage of your network?

### Scenario One - Increase Capacity with Network Investments

In this example, the BLM Managers leveraged \$20,000 in habitat restoration funding with \$60,000 in network partner support. For every dollar in federal funding, partners contributed \$3.00. Leverage ratio is 1:3

Network Partner	Area of Responsibility	Funding Dedicated
BLM	Habitat Restoration Management	\$20,000
Partner [County]	In-Kind Equipment	\$15,000
Partner [Friends]	Volunteer Support and Coordination	\$15,000
Partner [NGO]	Mapping and Data Collection	\$20,000
Partner [Friends]	Media/Public Outreach	\$10,000
5 Partners		\$80,000

### Scenario Two - Annual Inventory of Network Investments

In this example, USFS managers leveraged \$500,000 in federal funding with \$2.5 million in network partner funding. For every dollar in federal funding, partners contributed \$5.00. Leverage ratio is 1:5.

Network Partner	Area of Responsibility	Funding Dedicated
USFS	Site Management	\$500,000
3 Partners	Restoration	\$750,000
2 Partners	Education/Interpretation	\$1,250,000
2 Partners	Wildlife Research and Monitoring	\$250,000
3 Partners	Media/Public Outreach	\$250,000
11 Partners		\$3,000,000

### Scenario Three - Increasing Capacity with Network Investments

In this example, NPS managers leveraged \$150,000 in federal funding with \$450,000 in network partner funding. For every dollar in federal funding, partners contributed \$2.00. Leverage ratio is 1:2.

Network Partner	Area of Responsibility	Funding Dedicated
NPS	Development of Web Site	\$150,000
Partners	Provided Web Site Content	\$300,000
Partner	3 Year Web Site Host and Coordinator	\$150,000
3 Partners		\$600,000
